- QA Intern (6 months). Gained hands-on experience with Katalon Studio Automation
- Testing. Contributed to Bandhan Bank ,Dot Kris, Atlas projects, ensuring high quality delivery

Internship

Dec 2023-Jan 2024

I completed an online internship with Acmegrade, where I worked on the development of an E-commerce website project. During this internship, I actively contributed to various aspects of the project, including website design, content creation, and coding. I collaborated with the team to ensure the smooth functioning of the website and conducted testing to identify and resolve any issues. This experience provided me with valuable hands-on experience in web development and enhanced my skills in project management.

PROJECT

Project Title: Bandhan AMC – Mutual Fund (Investor Portal)

Sep 2024 - Dec 2024

- Independently handled the Scheme module, including SIP, STP, Switch, Lumpsum, and new user registration.
- Performed UI, functionality, responsiveness, and mobile testing to ensure seamless user experience across devices.
- Conducted API testing using Postman with both valid and invalid payloads to verify accurate responses.
- Logged and tracked bugs in JIRA, collaborating with the dev team for timely resolution.

Project Title: Atlas

Dec 2024 - Dec 2025

- Clients: Poonawalla Fincorp, Aditya Birla Capital, MaxLife , ICICI-Security
- Responsible for verifying core functionalities, UI, and responsiveness across portals.
 - Performed sanity testing on the Dev Portal and Manager Portal to ensure key features were functioning correctly.
 - Conducted API testing using Postman, validating response codes, payload structures, and authentication mechanisms.
 - Ensured all integrated APIs were functioning as expected and generated logs for each API interaction.
 - Executed load testing to assess system behavior under various traffic conditions.

Project Title: Tata Mutual Fund

Aug 2025 - On-going

- Client: TATA Asset Management Company Platform: Investor & Distributor Portals (Web & Mobile)
- Performed UI and responsiveness testing across various screen resolutions for both mobile and web platforms.
 - Tested core modules of Mutual Fund operations, including Investor Portal and Distributor Portal.
 - Reported layout issues, alignment mismatches, and cross-browser compatibility bugs.
 - Ensured seamless user experience across different devices and form factors.
 - Used JIRA for bug logging and tracking, ensuring timely resolution and clear communication with the development team.
-
